EDUCATION

SLTC Research University | BSc (Hons) in Cloud Computing — Expected 2028

Al-Azhar National College, Hemmathagama | Advanced Level, E-Tech Stream
ICT (B), Engineering Technology (C), Science for Technology (C)

R/Al-Mackiya National School | Ordinary Level
2 A's, 1 B, 6 C's

SKILLS AND PROFICIENCIES

Languages: Java, PHP, JavaScript, TypeScript, SQL, HTML, CSS
Frontend & Mobile: React, Android Studio, WordPress, Elementor
Databases & Backend: MySQL, PostgreSQL, Supabase, Firebase, REST APIs
Tools & Platforms: Git, GitHub, VS Code, Android Studio,NetBeans, Vercel, Photoshop
CS Fundamentals: Cloud Computing, System Design

EXPERIENCE

Software Developer OJT Trainee | Mahapola Port & Maritime Academy, Sri Lanka — Ongoing

- Contribute to an ongoing Learning Management System (LMS) and institutional website for the Academy.
- Analyse requirements for five user roles (public visitors, applicants, students, lecturers, administrators) and document workflows and an implementation plan in terms non-technical staff can follow.
- Plan a low-cost, local-first prototype using synthetic data before any live deployment.

PROJECTS

RouteRescue LK | Supabase, Vercel, Supabase — Live

- Built an on-demand roadside assistance PWA, deployed on Vercel: route-rescue-lk.vercel.app

Hotel The Blue Moon | Web Platform, Vercel — Live

- Developed and deployed a website for Hotel The Blue Moon on Vercel: hotel-the-blue-moon-web.vercel.app

Hotel Room Booking System | Java, NetBeans, MySQL

- Developed a Java desktop application for hotel room booking, using MySQL for data storage.

Mahapola LMS | Learning Management System

- Designing an LMS for the Academy covering course information, student applications and learning resources.

3D Cloud Engineering Portfolio | Personal Portfolio

- Building a portfolio with a cinematic 3D cloud-engineering theme to showcase my skills, projects, education and contact details.

CERTIFICATION & MEMBERSHIP

Software Developer, NVQ Level 4
IEEE, Member (ID: 101695500)
